MINISTRY REPORT

message from the president

Thank you for sharing Christ and transforming lives through Lifeline! As we look at all that happened in 2023, these stories, statistics, and dots on the map are only possible because God worked through people like you.

You'll read about Carlisle, Samir and Isana, whose lives have been changed because they interacted with a Lifeline ministry. You'll also see how thousands of others around the world have been influenced too.

Thank you for your partnership, prayers and generosity!

carlisle's story

Sparking lives on mission for God. Everyone. Everywhere. That's Lifeline's vision!

Carlisle needed volunteer service hours for school. To check this off her list, she reached out to Lifeline's Charlotte Centre to see if she could help out. But for Carlisle, what was initially just a school requirement soon became so much more.

As she helped in the Centre, Carlisle learned about the problem of local and world hunger, and she met other volunteers who were passionate about the Centre's work. Carlisle felt God working in her heart!

Over time, she felt increasingly drawn to the Centre. **She became so passionate about the Centre that she even started leading meal pack events.** Today, Carlisle is a familiar face at the Centre and an integral part of what goes on there!

Carlisle's heart has been sparked on mission for God.

samir's story

In Cofradia, Honduras, opportunities for young men and women are limited. Many do not finish school. They may spend time on the streets, at risk of exposure to gangs and drugs.

Samir was no different. He dropped out of school after 6th grade during the pandemic. His father, a bricklayer, would take Samir with him to work, teaching him the trade and keeping him off the streets.

But Samir started to want a different path forward. That's when Samir learned about a vocational training program nearby. It was conceived by a Lifeline pastor who wanted to change the story of teens like Samir.

The training facility was collaboratively built by a North American church and a Honduran team. Two old shipping containers were transformed to house the program.

Today, Samir is a skilled carpenter, welder, roofer, and electrical technician. His life trajectory has changed, rippling its impact to his family, community, and generations to come!

“My teachers taught me to never give up, to be determined and to focus on my future. They all impacted me so much! ~ Samir”

isana's story

Isana and her husband have four children and care for three other children too. Despite their best efforts, they were struggling to feed them all. And that hurt. Life in Haiti can be so hard.

But God knew about Isana's struggle. And so did Lifeline's agriculture program manager. He believed that her warm personality was one of her greatest assets. **So after a bountiful harvest, he followed God's nudge and gave Isana a basket full of green peppers.** He suggested that she try to sell them in the local market to earn some income.

From that first basket of peppers, sales took off! Isana was amazed as profits rolled in. Her market business was born! Isana is now one of the most profitable vendors in the market.

"We used to live in lack," Isana said. "Now we eat every day." That is a lot of empowerment from just a humble gift of peppers!

God has shown me His goodness!
I am pleased that I can help
meet my family's needs! ~ Isana
