| suzanne's story

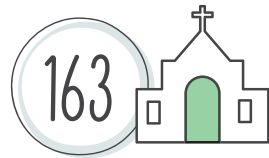

Suzanne attended a meal pack at Lifeline Louisville Centre. This motivated her to join the volunteer Spark! team.

In September 2022, she felt a nudge to join other Spark! Team members on a mission trip to Honduras. "We visited and ate at a taco restaurant run by girls from Lifeline's girls' home," she said. "I learned how Lifeline made the business possible...from materials, to education, and microloans."

She also recalls the joy she felt watching children in school and church! "It's clear so much is happening at Lifeline to love and serve the poor."

| madai's story

Madai grew up in a very dangerous neighborhood in Honduras. She begged her parents to move, but they couldn't afford it.

Her family found Lifeline's Christian school, where she sought refuge and was given a safe place to learn. Her teachers poured into her, helping strengthen her faith and giving her hope for a brighter tomorrow.

Madai became a kindergarten teacher, teaching Bible and Spanish lessons. And now, her two girls attend the very same school where as a young girl she had found love, refuge, and faith.

| jose's story

Jose struggled to make ends meet and faced bankruptcy with his roadside grocery stand.

But everything changed when he decided to participate in Lifeline's Economic Empowerment training. "Before the training, I didn't know how to run a business well," he says.

Jose learned many valuable skills through the training, like product profitability and business accounting. He soon expanded his inventory and noticed his profits increasing! Today, Jose's stand is doing so well that he has opened a savings account and dreams about expanding!
